(1967) 11. In addition to the Teaching Assistant information you have provided, please write any additional comments in the space below.

Delwin is probably one of the best TA's that I have ever had. I am a learner that benefits the most from one on one contact so he is always very accommodating. In addition I have never had faster replies to my emails than Delwin which makes him extremely accessible and helpful!

-----  
This is the best TA I have ever had! He is so helpful, kind, and patient with everyone. He always makes sure everyone's questions are answered before moving on and that really helped a lot. He was also very understanding of my DSP accommodations and made me feel included and welcomed in this tough 3 hour lab every week.

-----  
Delwin Carter was very attentive to and patient with students in our lab section. He explained topics clearly and brought a positive energy to the environment, especially considering the difficulty of the course.

-----  
Delwin was one of the best TA's I have had throughout my college career. I would rank his teaching and style as superior. He is a very personable teacher who clearly wants the best for his students.
