1.17) Are there any specific things the instructor does particularly well? Are there any specific things the instructor could improve upon?

The instructor is very clear and methodical in presentation of materials and emphasis of greater conceptual understanding.

He takes time to make sure everyone in the class has a good understanding of information before moving on.

Thank you for explaining the questions I had clearly to me.

The fact that he is approachable, I feel comfortable approaching him about things I don't understand.

This man is a God. Whenever a student needs help he'll go out of his way to make time to help you understand the material. Highly recommend that he gets a raise.

Keep up the good work!

He is very approachable, lets us know we can always ask for help in class and outside as well.

Does a great job modeling problems and breaking them down.

Very good at giving support and feedback!

He is ~~quite~~ ~~at~~ available at any time and response

~~quite~~ quickly.

He seems to truly care about his students and takes extra time outside of class to encourage understanding.

Carter makes a difficult subject easy to comprehend.
Lecture with Quizzes and Combination of Lab with
Carter has helped extremely.

Delvin is super nice & personable he wants to help you understand the
labs. He is a really great professor

I really liked how he understands our frustrations being that he himself has
gone through it, so his advices helped a lot and he was always open to
helping in any way whether it'd be via email or office hours.

Instructor was great and very approachable.
His assistant Andrew was also great.
