(3815) 9. What did the T.A. do that was useful? (e.g., helped in preparing for exams, clarified material, etc.)

Always brings a really positive attitude to class and tries hard to engage students.

Was very interactive with students

Very effective at leading discussion, and clarified material very well.

My T.A. went over the course's content and clarified the course material each week, which was very useful for clearing up any confusion about the week's content. It also helped us understand the content even further and view it in different ways/perspectives. Additionally, he answered every question with enthusiasm and encouraged us to contact him if we had needed it.

(3816) 10. What would you do to improve this section?

I have no suggestions.

Nothing, he was great!

Nothing, it was great.

I think that the main aspect of this section that needs improvement is student participation. Maybe having the members of the activity groups present altogether would help students participate more and feel more comfortable in sharing their perspectives. Therefore, encouraging more in-depth class discussions.
